

October 5, 2015

Mr. Mathew Webb
Contract Administrator
Texas Water Development Board

RE: Progress Report #3 – Lane City Research Grant Contract No. 1400011761
Reporting Period 06/2015-08/2015

No construction is currently underway for the Wave Wall, River Return System, or the Chimney Drain. LCRA is not requesting any construction cost reimbursement at this time.

Task 1: All permits obtained by Barnard Construction, being transferred to LCRA during GMP 1 Closeout.

Task 2: In June, closeout began on the GMP1 and the Barnard Contract. LCRA continues to install office trailers at project site location. CH2M issues new plans for General Contractor package. Began developing a new RFP general contractor package. Submit package to TWDB for review and feedback.

In July, LCRA issued RFP for general contractor proposals. Conducted pre-proposal site tour for general contractors. All site work for GMP1 completed by Barnard.

In August, LCRA continued to respond to questions from general contractors for the RFP. Prepared site for magnetometer survey to search for buried oil and gas wells. Executed agreement with AEP to relocate Transmission Line onsite.

Task 3: No work completed during reporting period.

If you have any questions or concerns please feel free to contact me at 512-730-6693 or Kate.Reilly@lcra.org.

Thank you,

Kate Reilly
